WAR FOOD ADMINISTRATION
Food Distribution Administration
Washington 25, D. C.

To: Recipients of Food Distribution Order Handbook

From: Dan A. West

Subject: Food Distribution Order Handbook

The Food Distribution Order Handbook, prepared under the supervision of this office, was intended to be used primarily in the food order education program. However, individuals concerned with order administration feel that it will be valuable as a handy reference source since the material content includes all orders, revisions, and amendments issued through September 15, 1943.

A limited number of copies are available for use by the Washington staff, and I have asked the Chief of the Reproduction and Distribution Section to release copies only to those persons who will use them in the operation of the several order programs.

You will note that each volume is numbered. The copy which you have received has been registered in your name, and copies of supplemental material to be inserted will be sent to you regularly as soon as possible after publication.

Note.—Remove pages I to VIII of Handbook. Insert pages I to IV.

INTRODUCTION

On April 20th, 1944, the Food Distribution Orders (FDO) were redesignated as War Food Orders (WFO).¹ In line with this, orders previously issued and new orders are designated in Supplement 8 as War Food Orders.

Supplement 8 brings up-to-date all information given in Revision 2 of Parts 1 and 2, and Supplements 1 to 7 for Parts 3 and 4, of the Handbook of War Food Orders administered by the Office of Distribution.

The material covered in Parts 1 and 2 of this supplement is *cumulative* and contains information regarding orders published in the Federal Register from February 26, 1944, through May 25, 1944. ***An asterisk (*) before the order indicates a new order or a change in the provisions of an old order since the publication of Supplement 7.***

Part 1 shows amendments, terminations, and suspensions of orders listed in Revision 2 of that part, as well as new orders published in the Federal Register during the period indicated above. All the orders are subdivided into two groups: A) Orders Other than Milk Conservation Orders, and B) Milk Conservation Orders. New designations of Order Administrators since February 21, 1944, are shown; the lists of Alternate Administrators, Deputy Administrators, and Regional Authorization Officers for WFO 69, Fruit for Alcoholic Purposes, have been revised; and a list of State Supervisors for WFO 97, Hen Turkeys and Processed Turkeys, is added.

Part 2 lists commodities affected by old orders terminated or suspended, and new orders issued.

In looking up an item in Parts 1 or 2 consult Supplement 8 first. If the item does not appear in the supplement the entry shown in Revision 2 has not been changed.

The material covered in Parts 3 and 4 deals only with information regarding orders published in the Federal Register from April 21, 1944, through May 25, 1944.

Part 3 gives the numbers for references to acts of Congress, regulations, and standards listed in the Handbook, which references are now canceled due to amendment or termination of orders. This is followed by references included in definitions used in new or amended orders. ***These references are cited in Part 3 under the same title as the definitions in Part 4.***

¹ Federal Register, April 22, 1944, Volume 9, number 81, page 4319.

Part 4 presents numerically the definitions given in the Handbook and supplements thereto, which definitions are now canceled due to amendment or termination of the orders in which they appear. The definitions used in new or amended orders are shown next. The definitions presented in the Handbook and supplements thereto are for reference purposes only and are not intended for any legal use.

At the end of Part 4 a revised index lists all active definitions and cross references. ***In looking up a definition consult first this index which gives the number of the definition and the page on which it appears.***

Let f be a function defined on a domain D and let a be a point in D . Then f is continuous at a if and only if for every $\epsilon > 0$ there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$.

PROOF. Suppose f is continuous at a . Let $\epsilon > 0$ be given. Then there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$. This is exactly the definition of continuity at a .

Conversely, suppose that for every $\epsilon > 0$ there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$. Then f is continuous at a .

THEOREM 2.2. Let f be a function defined on a domain D and let a be a point in D . Then f is continuous at a if and only if for every sequence $\{x_n\}$ in D with $x_n \neq a$ and $x_n \rightarrow a$, we have $f(x_n) \rightarrow f(a)$.

PROOF. Suppose f is continuous at a . Let $\{x_n\}$ be a sequence in D with $x_n \neq a$ and $x_n \rightarrow a$. Then for every $\epsilon > 0$ there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$. Since $x_n \rightarrow a$, there exists an N such that for all $n > N$, we have $|x_n - a| < \delta$. Therefore, for all $n > N$, we have $|f(x_n) - f(a)| < \epsilon$. This means $f(x_n) \rightarrow f(a)$.

Conversely, suppose that for every sequence $\{x_n\}$ in D with $x_n \neq a$ and $x_n \rightarrow a$, we have $f(x_n) \rightarrow f(a)$. Then f is continuous at a .

THEOREM 2.3. Let f be a function defined on a domain D and let a be a point in D . Then f is continuous at a if and only if for every $\epsilon > 0$ there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$.

PROOF. Suppose f is continuous at a . Let $\epsilon > 0$ be given. Then there exists a $\delta > 0$ such that for all x in D with $|x - a| < \delta$, we have $|f(x) - f(a)| < \epsilon$. This is exactly the definition of continuity at a .

546. LINSEED OIL, RAW, OFFER TO SELL

FDO 56, Raw Linseed Oil Set Aside

FDO 57, Inventories of Raw Linseed Oil Set Aside

See: OFFER TO SELL RAW LINSEED OIL

¹⁴ This definition has been interpreted as follows in a note dated July 16, 1943, attached to FDO 63: The words "linseed oil" appearing in the phrase "and includes the linseed oil content of the linseed oil not restricted under paragraph (c) (1)" refers to linseed oil as defined in War Production Board Order M-332. Linseed oil is defined in that order as follows: "Linseed oil" means the oil crushed, pressed, or otherwise extracted from flaxseed, whether raw, bodied or otherwise processed. The term includes linseed oil blended with other oils, whatever the proportion of linseed oil used. Moreover, the linseed oil not restricted by paragraph (c) (1) of War Production Board Order M-332, is linseed oil as defined in that order which has a non-volatile content of not more than 70% by weight. It follows that, linseed oil as defined in Food Distribution Order 63, means the oil pressed, expelled, or otherwise extracted from flaxseed, whether raw, bodied, or otherwise processed, and includes the linseed oil content in any blend of linseed oil and other oils (having a non-volatile content of not more than 70%, by weight), whatever the proportion of linseed oil used.

See: MAXIMUM UNIT OF INEDIBLE TALLOW OR GREASE

1572. INVENTORY OF INEDIBLE TALLOW OR GREASE

FDO 67, Amendment 1, Inedible Tallow or Grease

"Inventory" (of Inedible Tallow or Grease) means all quantities of inedible or grease, owned by a manufacturer, dealer, or producer, and all of the inedible tallow or grease for which he holds a contract for delivery in the future; less the amount of inedible tallow or grease as such, which he has sold but not delivered. The term shall include all inedible tallow or grease, in process up to the point at which it ceases to exist as such, by reason of saponification, neutralization, pressing, distillation, or compounding with nonfatty materials.

1573. MANUFACTURER OF ANY FINISHED PRODUCT USING FISH OIL

FDO 60, Amendment 1, Fish Oil

"Manufacturer" (of Any Finished Product Using Fish Oil) means any person who uses fish oil in the manufacture of any "finished product" and shall include all other persons directly controlling or controlled by such person and all persons under direct or indirect common control with such person. The term shall not include any renderer, refiner, or other processor except as and to the extent that his operations result in the production of a "finished product".

1574. MANUFACTURER USING INEDIBLE TALLOW OR GREASE

FDO 67, Amendment 1, Inedible Tallow or Grease

"Manufacturer" (using Inedible Tallow or Grease) means any person who uses inedible tallow or grease in the manufacture of any other product. For the purposes of this order, mixed fatty acids shall be considered as another product.

1575. MAXIMUM UNIT OF INEDIBLE TALLOW OR GREASE

FDO 67, Amendment 1, Inedible Tallow or Grease

"Maximum Unit" (of Inedible Tallow or Grease) means the largest, single, segregate, commercial quantity of inedible tallow or grease which a person accepted delivery of during the base period.

1576. NORTHERN AREA OF ZONE 9 FOR SLAUGHTERERS

FDO 75-2, Amendment 4, Beef Required to be Set Aside
